

Unique villa with fantastic sea and mountain views

Address: koukourava

Description: This beautiful villa was long ago named "The Balcony" by the locals due to its panoramic location in upper Koukourava. The views of Volos, Sea and Mountain are breath-taking, and you can always hear the river down in the valley. Located within walking distance from Makrinitza, the most representative village in Pelion and 5 minutes by car from the town of Volos, you will have the best of two worlds! Lots of love has been given to the property by the owners who have gradually extended the garden into three stone terraced levels, one of which is perfect for barbeques and dinners with family and friends. Grape vines are covering two of the terraces from the sun which also makes for a lovely day at home in the private garden. An outside shower with cold water cools you off on a hot day. The boutique style villa; a combination of traditional and modern design, comes with 3 bedrooms, 2 bathrooms, a living room with flat screen tv, fully equipped kitchen and dining area in the main house. An apartment with independent entrance, including a big bedroom/lounge and lovely bathroom in natural stone. Big utility room with washing facilities.
